

# Progressive Insurance® Awards \$250,000 to Black Entrepreneurs Through Driving Small Business Forward Grant Program

## 10 recipients will receive funds for use toward the purchase of a commercial vehicle for their business

MAYFIELD VILLAGE, Ohio, August 15 – [Progressive Insurance®](#), the leading commercial auto insurer in the United States, has announced the 10 recipients of its 2023 Driving Small Business Forward grant with Hello Alice in support of Black entrepreneurs. Each small business owner has been awarded a \$25,000 grant for use toward the purchase of a commercial vehicle for their business.

While 20 percent of Black Americans start businesses, only 4 percent of Black American businesses survive the start-up stage, as they disproportionately struggle with debt and raising capital in addition to challenges such as a lack of helpful relationships in the business community, according to [McKinsey & Company](#). Progressive is stepping in to provide funding to Black entrepreneurs to help navigate their small business journey.

"At Progressive, we celebrate all business owners, yet we understand Black business owners still face unique challenges," said Karen Bailo, Commercial Lines President at Progressive Insurance. "For the last two years, the Driving Small Business Forward grant program is one of the ways we've been supporting entrepreneurs on their small business journey, and we look forward to seeing how this grant helps these deserving recipients continue their work serving the community."

The full list of recipients for the 2023 Driving Small Business Forward grant program include:

- Derald Gray, owner of [DG Visionaries](#) in Indianapolis, IN

Recipients were selected, in part, due to their strong applications showcasing the impact their business has on the local community. Elizabeth Abunaw, owner of [Forty Acres Fresh Market](#) in Chicago, IL, provides affordable, healthy food that is accessible to all people through citywide delivery service, pop-up produce markets at community spaces, and a pending brick and mortar store.

"I founded Forty Acres Fresh Market after witnessing the large disparity in resources and infrastructure in predominantly Black communities," said Elizabeth Abunaw. "My vision was to provide convenient and healthy shopping options and increase healthy food equity and access in areas that needed them."

Another applicant, Shenicia Barnes, owner of [Kidz on Wheelz LLC](#) in Mansfield, TX, developed a door-to-door transportation service for children four to 18 years of age to help parents by providing a safe and reliable means of transportation.

"Being raised by a single parent, I was familiar with the challenges of not having access to transportation to school or extra-curricular activities," said Shenicia Barnes. "I started an in-home childcare and transportation service to help local moms with transporting their children to and from school and offer support to single parents."

To administrate the grant program, Progressive worked with business accelerator [Hello Alice](#), the financial technology organization helping over one million small businesses access capital.

"Hello Alice fights for financial equity among small businesses and we are in awe of the hard work and passion displayed by entrepreneurs across the country. We are proud to partner with Progressive and support Black-owned small businesses. These businesses are critical to our economy and the future of our country. "Hello Alice Founder and CEO Carolyn Rodz.

This fund offers financial support to business owners of all backgrounds with grants of varying amounts awarded from the fund three times a year.
